

I-91 VIADUCT STUDY

Springfield, Massachusetts

Join the Massachusetts Department of Transportation for a

Public Information Meeting

on the

I-91 Viaduct Study

Tuesday, December 6, 2016

6:00 PM to 8:00 PM

UMass Center at Springfield, Room 014

Tower Square, 1500 Main Street, Springfield

MassDOT is hosting the second public information meeting on the Interstate 91 (I-91) Viaduct Study. The I-91 Viaduct Study is a conceptual planning study to develop recommendations for a long-term vision for I-91. MassDOT initiated this study to identify existing issues and evaluate alternatives for I-91 from I-291 to the Connecticut State line.

The project team will present an overview of three long-term alternatives for the I-91 viaduct, as well as short and mid-term improvement alternatives. These include above and below-ground options for sections of the highway, new bicycle and pedestrian amenities and connections, and improvements to highway interchanges. The public is encouraged to attend to learn more about the study and provide feedback.

For more information, visit the study website:

www.mass.gov/massdot/I91ViaductStudy

This meeting is accessible to people with disabilities and those with limited English proficiency. Accessibility accommodations and language services will be provided free of charge, upon request, as available. Such services include documents in alternate formats, translated documents, assistive listening devices, and interpreters (including American Sign Language). For more information or to request reasonable accommodation and/or language services, please contact MassDOT's Director of Civil Rights by phone at (857) 368-8580, TTD/TTY at (857) 368-0603, fax (857) 368-0602 or by email to MASSDOT.CivilRights@dot.state.ma.us by November 29.
