

Commonwealth of Massachusetts
STATE RAIL PLAN
UPDATE 2016

DIAL OR WALK IN....

The Massachusetts Department of Transportation (MassDOT) is holding a **public meeting** to discuss its efforts to update the State Rail Plan. The meeting will include an overview of the update process, summary of the current system use, and other efforts underway to improve the network. The State Rail Plan will outline the Commonwealth's policies and planning goals for the state rail network, describe the existing rail system and future anticipated trends, and identify the proposed system improvements that comprise the state investment program.

People can participate by video conference or in person.
