

# SMART GROWTH COMMUNITY CHECKLIST

## Town of Hadley

This checklist is designed to assist the Town of Hadley in implementing Valley Vision Smart Growth Strategies at the local level. As part of the Valley Vision Memorandum of Agreement, each community committed to review existing zoning and subdivision regulations to determine if they are consistent with Valley Vision, as well as consider the adoption and enforcement of land use regulations designed to promote efficient growth consistent with Valley Vision. This

checklist has been developed to assist your community in these tasks.

The checklist can also be used to assist your community in increasing its Commonwealth Capital Score. Commonwealth Capital is a policy developed by the Office of Commonwealth Development to encourage communities to implement smart growth within their land use regulations as part of the evaluation of proposals for state funding programs. The Commonwealth Capital Score in the Town of Hadley was 73 points in FY05 and 85 points in FY06. The maximum number of points a community could score is 140. Based on recommendations in your community land use plans, implementation of key smart growth policies will also improve your community's score.

The Smart Growth Strategies in Valley Vision provide a menu of smart growth options a community can select from, depending on the size and character of your community. While not every strategy fits every community, you will find that many strategies are a good match for your community. The options that are highlighted in this checklist are based on the goals and objectives Hadley residents identified in its Master Plan and Commonwealth Capital Application. Additional recommendations have also been provided by PVPC, largely on new zoning tools that might not have been considered in previous planning efforts.

As of April 2007, Hadley has implemented eleven (11) Smart Growth Strategies and is currently working on one (1) additional strategy highlighted in the regional land use plan, Valley Vision 2. Based on strategies identified in your Master Plan and Commonwealth Capital Application, as well as recommendations made by the Planning Commission based on the Valley Vision regional plan, your community could consider implementing eleven (11) additional smart growth strategies in the future.

**SMART GROWTH COMMUNITY CHECKLIST  
TOWN OF HADLEY**

SUCCESSFULLY IMPLEMENTED	BUILDING BLOCK	IDENTIFIED IN COMMUNITY PLANS	POINTS AVAILABLE UNDER COMMONWEALTH CAPITAL
✱	Traditional Neighborhood Development (TND)	P	(1) bonus point
