PREFACE

The Pioneer Valley Region

The Pioneer Valley Region is comprised of 43 cities and towns covering approximately 1,180 square miles. Home to over 608,000 residents, the Pioneer Valley is the fourth largest metropolitan area in New England. The following map references the Pioneer Valley Region and displays an outline of the principle highways throughout.

TIP Format and MPO Endorsement

The FFY 2007-2010 TIP has been prepared with completely separate components of the document that are subject to federal review and approval and components that are not. This distinction of a "federal component" was the firm position of the Executive Office of Transportation (EOT) as a means to avoid potential problems with adequately satisfying federal financial constraint requirements with the non-federal aid component of the TIP. Although a non-federal component of the TIP is represented, it is understood that this component is not subject to Metropolitan Planning Final Rule 23 CMR 450 section 324, therefore federal review and approval is not required.

The non-federal component is provided for the benefit of the MPO and the constituent communities as a representation of an agreed upon listing of improvement projects to be undertaken entirely with state provided resources. All projects included in the NFA section of the TIP must be eligible to receive federal funds and be located on a functionally classified road. The separation of federal aid projects from non-federal aid projects by no means represents a lack of commitment by the state to fund all projects specifically programmed in the document. Assuming that adequate funds are available from federal and/or state sources, it can be fully expected that the following project listings can and will be implemented over the FFY 2007-2010 time frame. Pending federal guidance approving the inclusion of non-federal aid projects without secured bonded resources in each year, the TIP will be amended to reinstate all non-federal aid projects into the document endorsed for federal review and approval.

EOT Commitment to Funding all Designed and Permitted Projects

The EOT has committed to funding all transportation improvement projects that will be ready for advertisement in FFY 2007 and beyond. In response to this commitment, Pioneer Valley local officials in cooperation with regional and state officials from the MassHighway department and the Executive Office of Transportation have made a concerted effort to develop a TIP project listing that is truly representative of the projects that will realistically be ready for advertisement in FFY 2007-2010. Funding targets for the Pioneer Valley Region have been issued by EOT identifying potential resources for each year of the TIP.

I. GENERAL SUPPORT INFORMATION

INTRODUCTION

The Transportation Improvement Program (TIP) is a requirement of the Metropolitan Transportation Planning Process as described in the Metropolitan Planning Final Rule 23 CFR 450 section 324. This regulation developed by the Federal Department of Transportation defines the Transportation Improvement Program as:

"A staged, multiyear, intermodal program of transportation projects which is consistent with the metropolitan transportation plan."

The Pioneer Valley TIP is a five-year schedule of projects identified by year and location complete with funding source and cost. The TIP is developed annually and is available for amendment and adjustment at any time. Each program year of the TIP coincides with the Federal Fiscal Year calendar, October 1 through September 30. All TIPs and amendments are consistent with the goals and objectives of the Regional Transportation Plan for the Pioneer Valley region. This TIP is financially constrained.

All projects in the TIP come from the conforming 2003 Regional Transportation Plan. All regionally significant projects included in the TIP were previously included in the air quality analysis completed for the conforming RTP. Because projects in the TIP come from the conforming RTP, and all regionally significant RTP projects for 2007 through 2011 (both Federal and Non-Federal Aid) are programmed in the TIP, the same air quality analysis utilized for the RTP can be used for the TIP. Therefore, this TIP, in combination with the TIPs from the other MPOs in the nonattainment area, is found to be in conformance.

DEVELOPMENT OF THE TIP

The Pioneer Valley Metropolitan Planning Organization (MPO) is responsible for developing the TIP. The MPO is comprised of eight members including four independently operating agencies and four locally elected officials:

- Executive Office of Transportation (EOT);
- Massachusetts Highway Department (MHD);
- Pioneer Valley Transit Authority (PVTA); and
- Pioneer Valley Planning Commission (PVPC);
- Mayor of Holyoke;
- Mayor of West Springfield;
- Selectboard member from Longmeadow;
- Selectboard member from Hatfield;

As the lead planning agency for the MPO, the PVPC accepts the responsibility for developing the TIP in a cooperative process with other members of the MPO and the general public. The final TIP is voted on for endorsement at a formal meeting of the MPO. The endorsed TIP project listing is included in the State Transportation Improvement Program verbatim and requires endorsement by the Governor.

The MPO relies on a transportation advisory committee to carry out the cooperative process during TIP development. The Joint Transportation Committee (JTC) is a group of community appointed officials, MPO member representatives, public and private transportation providers, citizens, and special interest groups and agencies. The JTC establishes and recommends to the MPO procedures for submitting, prioritizing and selecting projects for the TIP. PVPC staff provides the technical support to conduct the TIP development activities for the JTC.

Below is a general outline of steps taken during the TIP development process.

- 1. JTC establishes submittal, priority and selection procedures and schedule
- 2. Project proponents (communities, MPO members, agencies...) submit projects
- 3. State submits annual funding targets for region
- 4. Projects are selected based on an adopted priority and selection process to consume funds
- 5. Draft TIP project listings are distributed for review and comment by MPO members, and the JTC
- 6. Final Draft TIP is approved by JTC for general public release for no less than a 30 day review period
- 7. Final Draft TIP is distributed for review and comment in accordance with the adopted Public Participation Plan
- 8. Public meetings and news releases are conducted to promote public involvement
- 9. Comments are compiled and addressed
- 10. Final TIP developed for JTC recommendation to MPO
- 11. MPO meets to vote on endorsement
- 12. Endorsed Regional TIPs are compiled to create the State TIP (STIP)
- 13. Governor Endorsed STIP submitted to federal agencies for review and approval
- 14. Federally approved STIP is ready for state implementation (project advertisement)
- 15. Amendment and adjustment of the TIP are conducted on an as needed basis

PROJECT PRIORITY CRITERIA AND SELECTION

The EOT developed a process and set of criteria to prioritize the region's TIP projects which was modified and endorsed by the MPO. All projects included in the TIP have been evaluated and assigned a priority value or rating. This process is used as a management tool to identify projects of regional priority and program them accordingly in the TIP.

PRIORITY CRITERIA

A Project Information Form was developed in concert with the priority process and contains information for each project submitted. In addition to this, consultation with the project sponsors and the state provided information also used in the evaluation of each project priority rating. The priority rating was based on the following information:

- Identified in the RTP;
- Project Preparedness;
- Benefit Cost;
- Facility Preservation;
- Congestion Relief;
- Safety;
- Enhanced mobility;
- Air Quality/Environmental;
- Enhancement Activity; and
- Status of Design.

The Project Information Form and a detailed outline of the project priority evaluation criteria are presented in Appendix E.

PROJECT SELECTION AND PROGRAMMING

The project priority ratings were applied in conjunction with a project's anticipated advertisement schedule and with the funding targets provided by the state to develop the five-year program of the TIP. A project was not considered for scheduling in a year earlier than its anticipated schedule regardless of the priority rating. For projects that are expected to be ready to go in the first year of the TIP the top priority projects for that year were funded under the federal aid categories, since these funds are most secure. Once the federal aid funds were completely programmed, non-federal aid funds were programmed to priority projects. This initial assignment procedure was applied to each year of the TIP and is subject to change as the TIP is developed and refined by members of the MPO and the JTC.

AMENDMENT/ADJUSTMENT OF THE TIP

For the purposes of project selection and programming, amendment or adjustment to the TIP can be conducted at any time. Amendment of the TIP consists of addition of a project not previously programmed, the advancement of a Year 3 project through Year 6 or a significant adjustment to project costs. Amendment requires formal MPO action.

Program adjustments can be conducted without formal MPO action in order to minimize constraints on programming projects. Minor adjustments could include such actions as moving projects between Year 1 and Year 2, and minor fluctuations in project description, costs and funding source. This action can be accomplished through an agreed upon administrative action.

DESCRIPTION OF FUNDING SOURCES

Interstate Maintenance (IM) - Resurfacing, restoration and rehabilitation are eligible activities for maintaining Interstate facilities. Reconstruction is also eligible if it does not add capacity. However, high-occupancy-vehicle (HOV) and auxiliary lanes can be added. Funding: federal - 90 %, state - 10 %.

Surface Transportation Program (STP) - This program is for the maintenance and construction of the federal aid system, all roads other than those functionally classified as local or rural minor collectors. Funds may also be flexed for use on bridge, transit

capital, and bike or trail facilities. A minimum amount of 10 percent must be set aside for both safety construction activities and for transportation enhancements. The remaining STP balance is for use throughout the state. Funding: federal - 80%, state - 20%.

Surface Transportation Program Enhancements (ENHMT) - A portion of the Surface Transportation Program funding for enhancement projects chosen by states and localities. Funding: federal - 80%, state - 20%

Congestion Mitigation and Air Quality Improvement Program (CMAQ) - These funds are directed towards transportation projects and programs which reduce transportation-related emissions. These funds are to assist areas designated as nonattainment and maintenance under the Clean Air Act Amendments of 1990. These projects will contribute to meeting the attainment of National Ambient Air Quality Standards (NAAQS). Funding: federal - 80%, state - 20%.

Bridges - Funds the replacement or repair of structurally deficient or unsafe bridges in urban and rural areas. All bridges, both on and off the federal aid roadway system are eligible for funding. Funding: federal - 80%, state - 20%.

National Highway System (NHS) - The National Highway System (NHS) consists of major roads in the United States, including all Interstate routes, a large percentage of urban and principal arterials, the defense Strategic Highway Network (STRAHNET) and other strategic highway connectors. Typically, these facilities qualify for an 80 percent federal share, however, projects on Interstates may qualify for up to 90 percent federal share funds. Funding: federal - 80%, state - 20%.

Other Federal Aid - This category includes projects that received federal funding within the Federal-Aid Program and may include special demonstration project funding. Funding: federal - 80%, state - 20%.

High Priority Projects (HPP) High Priority Projects are congressionally earmarked projects that have been deemed as a high priority for the state were the project is located. Funding: federal - 80%, state – 20%

Section 115 Funds Included in the Transportation bill as congressional earmarks, each year the earmarks are given a designated funding category. In FFY2005 the funding designation for these projects was Section 115 Funds. Funding: federal – 100%, state -0%

Section 117 Funds Included in the Transportation bill as congressional earmarks, each year the earmarks are given a designated funding category. In FFY2006 the funding designation for these projects was Section 117 Funds. Funding: federal – 100%, state -0%

Non-Federal Aid (NFA) - This funding category contains all those projects not receiving federal funds. Various categories of state funding are included in this group including bikeways, State Aid (Chapter 90), and highway construction and maintenance (Chapter 497). This category is included in the TIP for informational purposes only. Funding: federal - 0 %, state - 100 %.

Section 5309 Capital (SEC.09) - A discretionary grant program funding capital projects in urban areas that are considered major capital investments in public transportation and facilities. Funding: Federal - 80%, State - 20%

Section 5307 Capital (SEC. 07-CAP) - Eligible projects for Section 5307 (Capital) funds include the planning, acquisition, construction, improvement and operating costs of facilities, equipment, and associated capital maintenance items for use in providing mass transit service. The Federal match for Planning and/or capital assistance under Section 5307 is 80 percent of the net project cost, but a recipient is permitted to provide additional local match at its option. There are three exceptions to 80 percent Federal match for capital projects:

- 1. <u>Air Quality Benefit</u>. If an air quality benefit can be forecast for a project such as a bus purchase, the federal match is 90 percent. Larger state and local matches are allowed.
- 2. <u>Elderly and Disabled Projects</u>. The federal match is 95 percent for any element of a capital project intended exclusively to enhance the accessibility and mobility of elderly and disabled persons and that is in excess of Federal requirements. All FTA-funded projects must be designed and implemented to meet the basic accessibility or mobility needs of elderly and disabled persons.
- 3. <u>Additional Service</u>. Capital expenditures for the increase in service can be funded with a 90% federal match.

Section 5307 Operating (SEC. 07-OPR) - Funds allocated under this category may be used to fund up to 50 percent of the operating cost associated with the provision of public mass transportation systems in urbanized areas.

Section 5310 - Section 10 pertains to transportation facilities meeting special needs of the elderly and disabled. Funds allocated under Section 16(b)(2) provide private non-profit corporations and associations with grants and loans to improve the mobility of the elderly and disabled. In Massachusetts, 16(b)(2) funds are administered at the state level by the EOT. These funds typically are used for the purchase of capital items, including lift-equipped vans. Mobility Assistance Program (MAP) funds are intended for use by public agencies, such as municipal councils on aging and the PVTA to provide van service to elderly and/or disabled persons.

Section 5311 - These funds are made available exclusively for public transportation projects outside the urbanized areas. Both capital and operating expenses are eligible.

Section 20 - Section 20 provides financial assistance for projects which address the human resource needs and conditions of the public transit industry. The federal share of eligible capital and project administrative expenses is not to exceed 80 percent of the net cost of the project. The federal share for state administration and technical expenses is 100 percent, not to exceed 15 percent of the state's total apportionment.

TRANSPORTATION SYSTEM OPERATING AND MAINTENANCE COSTS

The FFY 2007-2011 TIP is consistent with the Regional Transportation Plan (RTP) for the Pioneer Valley Region. Table 1 presents the estimates outlined in the RTP of

annual expenditures associated with operating and maintaining the transportation system. These estimates represent past expenditures and do not reflect costs associated with maintaining a constant level of system performance.

Table 1 Transportation Operating and Maintenance Expenditures						
Item		Average Annual Expenditure				
Annual Highway and Bridge Maintenance		\$39,785,267.12				
Annual Transit Operating, Maintenance and Improvement		\$29,500,000.00				
Annual Commuter Rail Operating Expense	es	\$1,000,000.00				
Annual Transit Capital Investment		\$8,000,000.00				
Tot	al Cost	\$78,285,267.12

II. PUBLIC PARTICIPATION SUMMARY AND CHANGES

The DRAFT FFY 2007-2011 TIP underwent a public review and comment period consistent with the Pioneer Valley Region Public Participation Process. This began June 30, 2006 and continued for 30 days until July 30, 2006. During this time, comments were received from communities, JTC, PVTA, PVPC, MHD District offices and EOT. Below is a summary of the significant changes by year to the Draft TIP as result of the public review and comment period.

COMMENTS MADE REGARDING THE FFY 2007-2011 TIP:

Comments by		Comment	Action	Date
PTVA	Projis	Comment Shift from FY08 to FY 11: PVTA Fleet Replacement (33 1995 Buses) 5309	funds moved	6/27/2006

			c	

In addition to the above changes, the Pioneer Valley Transit Authority requested that the following be included: The Pioneer Valley Transit Authority, the FTA Section 5307(c) applicant, has consulted with the Pioneer Valley Planning Commission and concurs that the TIP satisfies the public hearing requirements that pertain to the development of the Program of Projects for regular Section 5307, Urbanized Area Formula Program, grant application including the provision for public notice and the time established for public review and comment.

For FTA projects that are not routine; i.e. Section 5307 applications that required environmental assessment or an environmental impact statement, the public involvement provided herein for TIP review is not sufficient. Additional public involvement will be required by FTA prior to grant approval, as presented in the joint FHWA/FTR environmental regulations, 23 CFR-Part 771.

The Federal Aid (FA) and Non-Federal Aid (NFA) elements were separated into two components. The FA component of the TIP was endorsed by the MPO and the NFA component is included in the main body of the TIP, however, is not subject to federal planning rules.

III. FEDERAL COMPONENT

PIONEER VALLEY MPO ENDORSEMENT

PIONEER VALLEY MPO ENDORSEMENT SHEET

The signatures below signify that all members of the Pioneer Valley Region's Metropolitan Planning Organization, or their designees, have met on June 4, 2008 and discussed the following item for endorsement: <u>Amendments to the 2007 – 2010</u> Transportation Improvement Program for the Pioneer Valley Region.

PIONEER VALLEY MPO ENDORSEMENT SHEET

The signatures below signify that all members of the Pioneer Valley Region's Metropolitan Planning Organization, or their designees, have met on August 1, 2006 and discussed the following item for endorsement: The Pioneer Valley Region's Federal Fiscal Years 2007-2010 Transportation Improvement Program (TIP).

Furthermore, in accordance with Section 176(c)(4) of the Clean Air Act as amended in 1990, the Pioneer Valley MPO has completed its review and hereby certifies that the Region's FFY 2004-2008 Transportation Improvement Program has been developed from a conforming Transportation Plan and therefore conforms with 40 CFR parts 51 and 93 issued on November 24, 1993, and 310 CMR 60.03, issued on December 30, 1994.

The 2007-2010 TIP consists of projects that are either:

- a. exempt from an air quality conformity determination as specified in 40 CFR Parts 51 and 93; or
- b. have been previously analyzed in the region's conforming transportation plan.

There are no regionally significant, non-exempt projects being added or deleted. This TIP does not reprogram existing regionally significant, non-exempt projects across the year 2007.

Executive Office of Transportation and Construction (EOT)

I, Secretary of the Executive Office of Transportation and Construction, hereby Endorse Do Not Endorse the above referenced item.

CERTIFICATION OF THE 3-C PLANNING PROCESS

In accordance with the Metropolitan Planning Final Rule, the Pioneer Valley MPO has completed its review and hereby certifies that the conduct of the 3-C Transportation Planning Process complies with the requirements of CFR 450.334 and includes activities to support the development and implementation of this TIP, the Regional Transportation Plan, and subsequent project development activities, as necessary and to the degree appropriate.

To reinforce this self certification, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) conducted a certification review of the Pioneer Valley MPO planning process in December 2004. The two day on-site review was preceded by a desk audit of the major planning documents completed as part of the planning process. Based on the certification review, the transportation planning process for the Pioneer Valley region was found to substantially meet the requirements of 23 CFR 450 Subpart C and 49 CFR 613.

FUNDING INFORMATION

Federal Aid Funding Targets

The EOT provided the revised PVPC federal aid highway funding targets and CMAQ targets for the region on May 8, 2006 The targets are provided for FFYs 2007 through 2010 and represent both the federal aid portion and respective state match.

Federal financial resources for transit are projected using appropriated amounts provided by the FTA for the funding categories of Sections 5307 and 5311. Sections 5309 and 20 are based on estimates of what will be reasonably available. Due to the discretionary nature of these categories, project line items are maintained in the fourth through sixth year of the TIP until an actual grant award is tendered. Section 5310 is programmed through the state and is awarded on a discretionary basis. Projections are based on past experience and the funding level provided by the State.

Federal Aid Financial Constraint

The federal aid element of the TIP is financially constrained according to the definition in Federal Register 23 CFR Part 450.324. The federal aid projects programmed for this region reasonably meet the federal aid funding targets provided for the region. Only projects for which funds can be expected have been included. Table 2 shows both these target amounts and the amounts programmed for highway projects during fiscal years 2007-2010. Projects that are not charged against the funding targets are not presented in the table. These projects include: Statewide items; and special funding projects.

reveral highway financial fian									
Fiscal Year	Federal Target	Federal Aid Programed	CMAQ Target	CMAQ Funded					
2007	\$11,910,550	\$11,944,575	\$3,242,976	\$3,242,976					
2008	\$12,106,344	\$13,643,750	\$3,242,976	\$3,242,976					
2009	\$11,894,064	\$12,451,181	\$3,242,976	\$3,200,000					
2010	\$11,524,230	\$12,061,000	\$3,242,976	\$3,125,000					

Table 2Federal Highway Financial Plan

The funding targets were programmed to projects according to project priority rating. Projects were programmed slightly beyond the program target with the understanding that the targets are not earmarks and program levels are expected to fluctuate.

The TIP reflects an emphasis on the maintenance and operation of the current transportation system with the ability to provide capital improvements. The federal aid program for each year consist of almost entirely of maintenance projects for the present transportation system.

The transit program outlined in Table 3 represents both apportioned items as well as discretionary items. The total programmed amount represents both the federal, state and local contributions.

Fiscal Year	Total Programmed					
2007	\$69,024,964					
2008	\$59,504,574					
2009	\$50,532,213					
2010	\$48,745,720					
2011	\$66,039,750					

Table 3 <u>Federal Transit Financial Plan</u>

The transit projects programmed focus on maintaining and operating the present system and reflect little to no expansion. The present transit system is being evaluated in order to service the same area more efficiently.

IV. TRANSPORTATION PROJECT PRIORITIES

ORGANIZATION OF PROJECT LISTINGS

Each project in the TIP contains the following information:

<u>SID</u> - Project identification numbers given by the Massachusetts Highway Department.
<u>City/Town</u> - Town or city in which a project is located.
<u>Project Description</u> - A brief description of work to be funded under the project.
<u>Funding</u> - The funding catagory from which funding is expected.
<u>Federal Funds</u> - The amount of federal dollars allocated for project construction.
<u>State Funds</u> - The amount of state dollars allocated to the project.
<u>Total Cost</u> - The total dollar amount that the project is expected to cost

V. FEDERAL AID REGIONAL PROJECT LISTINGS

The following is a complete listing of the Pioneer Valley Federally Funded Transportaion Improvement Projects for Fiscal Years 2007-2010.

Appendix Z: Other projects within the Region

Agawam	Rte. 57	Construction: Rte. 187 to Southwick	115300	\$28,000,000.00
Agawam	(Rte. 187)	Reconstruction: Pine St.to Westfield TL	600513	\$2,800,000.00
Agawam	Route 57	Resurfacing on sections of Route 57	604508	\$1,239,934.00
Agawam	Improvements	Intersection Improvement	604203	\$200,000.00
Agawam	Bikeway Loop	Bikeway loop Main/River/School	603731	\$378,021.00
Agawam	Connector, Rte 5 to Rte 57/rotary	Connector, Rte 5 to Rte 57/rotary	603372	\$8,000,000.00
Agawam	Improvements	Resurfasce and related work	602653	\$2,880,000.00
Agawam	Route 57 Bridge over 75	BR# A-05-021	604504	\$360,000.00
Amherst	Rte 116 Atkins Corner	Realign Road, Intersection Improvement	604043	\$3,200,000.00
Belchertown	N. Washington St.Reconstructior	Reconstruction: S. Main St. to North Liberty Street	604692	\$1,040,000.00
Belchertown	Wilson St Bridge	Bridge # B-05-023	602997	\$1,116,000.00
Belchertown	Bridge Replacement	Bardwell St. over Jabish Brook	602927	\$0.00
Belchertown	Route 181 (Footprint)	Valley, Franklin, and Depot	604433	\$1,955,200.00
Brimfield	Rt. 20 improvement and project	Rt. 19 west to 1500 feet west of Prospect Hill Rd miles	602367	\$1,632,000.00
Brimfield	Route 19 (Wales Rd.)	Rehabilitaion of BR#B-24-006	602540	\$125,000.00
Chester	Maple Street Bridge	Enhancement: Restoration	602349	\$614,288.00
Chesterfield	(Footprint)	Tonw Line	604718	\$1,680,000.00
Chicopee	Improvements	Reconstruction: From Rte. 33 to Shawinigan Drive	604434	\$4,960,000.00
Chicopee	Chicopee Riverwalk	Construction: From Chicopee Center, 2.5 mi.	602912	\$1,118,788.00
Chicopee	Connecticut Riverwalk	Construction: Plainfield St. to Nash Fld.	602911	\$1,289,000.00
East Longmeadow	Westwood Ave.	Reconstruction: Maple St. to N. Main St.	603708	\$1,600,000.00
East Longmeadow	Mapleshade Ave.	Reconstruction: Pleasant St. to N. Main St.	603709	\$1,500,000.00
Easthampton	Park St. Bridge	Reconstruction: BR# E-05-008 over RR tracks	048941	\$640,000.00
Easthampton	Pomeroy Meadow Rd	Reconstruction: S. Hamp. TL north to Loudville Rd.	602486	\$595,200.00
Easthampton	Street	Replace Bridge # E-5-019 over Broad Brook	604464	\$460,000.00
Easthampton	Bridge Replacement Route 10	Replace Bridge E-05-006 over Manhan River	604048	\$0.00
Goshen	Route 9 reconstruction	Resurface: Rte. 112 to Williamsburg TL	602888	\$2,800,000.00
Granby	Burnett Road	Replace: BR# G-09-001	602609	\$450,000.00
Hadley	South Maple Street	Reconstruction: South of Rte. 9 to Bay Rd.	602796	\$2,200,000.00
Hatfield	Elm Street	Reclamation and Related Work	604208	\$400,000.00
Holyoke	Jarvis Avenue	Improvements to three signalized intersections	603383	\$250,000.00

August 2006

Ludlow/Spfld.	Rte. 21 Bridge	Reconstruction: BR# L-16-008 over Chicopee River	601156	\$0.00
Northampton	Bliss Street	Replace BR# N-19-023 over the Mill River	602538	\$1,200,000.00
Northampton	059	Bridge rehabilitation BR# N-19-059 I-91 NB and SB	602381	\$5,000,000.00
Northampton	Street intersection improvements	hour congestion	604452	\$120,000.00
Northampton	Road	Replace Bridge # N-19-035 over Roberts Meadow Brook	604242	\$515,400.00
Whatley	Park and Ride	9 in Florence	604222	\$640,000.00
Palmer	Rte. 32 (Ware Road)	Reconstruction: Stimson St. to Ware TL	601504	\$3,200,000.00
Pelham	Meetinghouse Road	Replace Bridge # P-04-007 over Harris Brook	604429	\$642,200.00
Plainfield	Route 116 (Main St)	Resurfacing and Related work	604825	\$1,250,000.00
South Hadley	Bridge Rehabilitation, Route 202	Rehabilitate Bridge # S-18-016 over Route 116	604383	\$750,000.00
South Hadley	Rte 202 Rotary Lighting	Rte 202 Rotary Lighting	603335	\$480,000.00
Southampton	East St.	Reconstruction: Rte. 10 to Holyoke TL	604653	\$1,920,000.00
Southwick	Reconstruction	line (before culvert)	604033	\$2,960,000.00
Southwick	(northerly)	Routes 10/202 resurfacing (northerly)	604155	\$1,200,000.00
Southwick	College Highway Bridge	Replace BR# S-22-005 over Johnson Brook	601322	\$378,000.00
Southwick	Route 57/10/202 Reconstruction	(College Highway)	603477	\$2,500,000.00
Southwick	(center)	Routes 10/202 resurfacing (center)	604154	\$1,600,000.00
Springfield	Roosevelt Ave.	Rehabilitate: BR# S-24-091 over Conrail	602600	\$650,000.00
Springfield	Longhill Street Bridges	BR# S-24-049 & S-24-050 & S-24-051	602570	\$2,276,000.00
Springfield	Roosevelt Ave.	Reconstruction: Bridge #S-24-090 over Conrail	602600	\$1,875,000.00
Springfield	Improvments (Indian Orchard)	141) Indian Orchard	604448	\$628,000.00
Springfield	Bridge Rehabilitation	Rehabilitate Bridge #S-24-032 State Street over Roosevelt Ave	604218	\$1,000,000.00
Ware	Project	Preservation Project	603454	\$1,120,000.00
West Springfield	CT Riverwalk and Bikeway	Dike Segement	603730	\$964,000.00
West Springfield	Rte 5 Reconstruction	Rte 5 Reconstruction from East Elm to Highland Ave.	604210	\$3,840,000.00
Westfield	Improvements	Elm Street, N. Elm Street	603330	\$2,400,000.00
Westfield	Improvement	Court until Mill Street	603449	\$2,800,000.00
Westfield	Street	Replace Bridge # W-25-011 over Pioneer Valley Railroad	160045	\$1,202,000.00
Westfield	Bridge Replacement	Southwick Rd BR#W-25-006 over the Litle River	400103	\$2,887,000.00
Westhampton	Kings Highway and Resevoir Rd	Rd, and Resevoir Rd from Kings Highway to Pine Island Lake	602822	\$1,360,000.00
Westhampton	Chesterfield Rd.	Reconstruction: Northampton TL to Chesterfield TL	602387	\$2,400,000.00
Westhampton	Southampton Rd.	Reconstruction: Rte. 66 to Stage Rd	602386	\$1,400,000.00
Westhampton	Bridge Replacement, North Road	Replace Bridge # W-27-015	604339	\$438,000.00
Wilbraham	Red Bridge Rd.	Reconstruction: BR# W-35-003	602652	\$700,000.00

Total Cost

\$125,779,031.00

VI. Transit Project Listing for FFY 2007-2011

The following is a complete listing of programmed transit projects for FFY 2007-2011

PROJECT IMPLEMENTATION

The TIP is also used as a management tool for monitoring the progress and implementation of the RTP and previous TIP's. The award status of FFY 2005-2006 TIP projects are identified in the following table.

Community	SID	Project Name	Project Description	Date Awarded
Palmer	111309		Rehabilitate: Bridge over Conrail	2/23/2005
Springfield	600551	Parker Street including bridge	Replace BR# S-24-020	1/5/2005
Agawam/W. Sprfld	600937	Rte. 5 Agawam/W. Springfield	Resurface from S. End Br. to Elm	4/5/2005
Northampton	601180	Norwottuck-Damon Bikeway extension	Damon Road Bikepath Bridge w/out tunnel	3/8/2005
Monson	602076	Hospital Rd.	Reconstruction: Rte. 32 to State Hospital	3/8/2005
Worthington	602312	Rte. 112	Resurface: Huntington TI to Bridge	2/1/2005
Holyoke	602420	Commercial St.	Reconstruction: I-391 to Appleton St.	10/18/2005
Palmer	602574	Roadway reconstruction	part of Spfld St/Wilbraham line project	5/10/2005
Agawam	602601	Reconstruct River Road	School St. north to State Hwy.	12/6/2005
Holyoke	602663	Route 202/ & Westfield Rd.	Improvement: Intersection & signals	10/4/2005
Chester	603002	Hampden Street	Bridge replacement over Walker Brook BR# C-11-004	7/26/2005
Belchertown	603274	Bridge Replacement	Mill Valley Road over Jabish Brook	8/9/2005
Ware		Bridge Replacement Hardwick Pond Road	Bridge Replacement, BR# W-05-011over Muddy Brook	3/22/2005
Amherst	603585	Swamp Brook Bridge	Reconstruction: BR# A-08-013 Meadow Street over Swamp Brook	11/29/2005
Hadley	603786	Resurface Route 116	Resurface Route 116	1/20/2005
Westfield	603926	Rte 20 Resurfacing	Rte 20 Resurfacing	2/23/2005
Ludlow/Wilbraham	603936	Bridge Repairs and Related Work Miller Street	Bridge Repairs and Related Work(L-16-3=W-35-1) over the Chicopee River	3/8/2005
Chicopee/Springfield	604179	I-291 Resurfacing	Resurface: I-291 Chicopee/Springfield	8/9/2005
Holyoke/Northampton	604281	Bridge Deck Repairs I-91	Repair Bridge # H-21-041, N-19-061, N-19-062, and N-19-064	1/4/2006
Agawam	604508	Route 57	Resurfacing on sections of Route 57	10/18/2005
Westfield	604513	Route 20	Resurfacing and Related work	10/12/2005
South Hadley	604520	Route 202	Resurfacing and Related work on a section of Route 202	11/22/2005
Southampton	604523	Route 10	Resurfacing and Related work on a section of Route 10	12/13/2005
Longmeadow/Springfield	604639	I-91 Pavment Rehabilitation	I-91 Pavment Rehabilitation	5/16/2006

CONFORMITY DETERMINATION

In accordance with Section 176 (c)(4) of the Clean Air Act as amended in 1990, the Pioneer Valley MPO has completed its review and hereby certifies that the FFY 2007-2010 Transportation Improvement Program has been developed from a conforming Transportation Plan and therefore conforms with 40 CFR parts 51 and 93 issued on November 23, 1993 and 310 CMR 60.03, issued on December 30, 1994.

The CAAA defines conformity to a SIP to mean conformity to the plan's purpose of eliminating or reducing the severity and number of violations of the NAAQS and achieving expeditious attainment of the standards. The Pioneer Valley MPO has certified that all activities outlined in the 2003 Regional Transportation Plan:

- Will not cause or contribute to any new violation of any standard in any area.
- Will not increase the frequency or severity of any existing violation of any standard in any area.
- Will not delay the timely attainment of any standard of any required interim emission reductions or other milestone in any area.

The analysis that was performed on the Pioneer Valley RTP includes all regionally significant transportation projects proposed to be completed within the timeframe of the RTP. All regionally significant projects included in the 2006-2010 TIP have been included in the analysis of the Pioneer Valley RTP; therefore, the TIP has been developed from the currently conforming RTP. The projects in the TIP are of the same design and concept that were analyzed in the RTP. Therefore, no new analysis was required for the TIP. All regionally significant RTP projects for 2000 through 2003 are programmed in the TIP (in other words, non-exempt RTP projects in the 2000 action scenario must be included in the TIP). Because projects in the TIP come from the conforming RTP, the same air quality analysis utilized for the RTP can be used for the TIP.

In addition, conformity to the SIP requires the RTP to be "financially constrained by year and include a financial plan that demonstrates which projects can be implemented using current revenue sources and which projects are to be implemented using proposed revenue sources (while the existing transportation system is being adequately operated and maintained)". The overall RTP is financially constrained to the annual federal apportionment and projections of state resources reasonably expected to be available during the appropriate time frame.

Included in this chapter are the tables taken from the conforming Addendum to the 2003 Regional Transportation Plan for the Pioneer Valley Region. Table 22 shows the nonexempt projects of the FFY 2006-2010 TIP. Table 1, in Appendix B shows the Volatile Organic Compound and Nitrogen Oxide emissions calculated for the Western Massachusetts Ozone Nonattainment Area. As shown in this table, the Pioneer Valley MPO in combination with the other MPOs/RPAs in the Western Nonattainment Area conforms to the requirements set forth in the Massachusetts SIP. Emissions calculated for the Springfield Carbon Monoxide Nonattainment Area are also included. Therefore, this TIP, in combination with the TIPs from the other MPOs in the Western Massachusetts Nonattainment Area, is found to be in compliance.

Municipality	Project Description				
Agawam/Springfield	South end bridge I-91 Improvements				
Chicopee Deady Memorial Bridge					
Hadley	Widening of Route 9				
Holyoke	Intermodal Center				
Northampton	Damon Road Improvements				
Springfield	Ramp Reversal				
Westfield	Great River Bridge				
Westfield	Intermodal Center				

Table 20
FFY 2006-2010 Non-Exempt Projects

Timely Implementation of Transportation Control Measures

Transportation Control Measures (TCMs) have been required in SIP revisions submitted to EPA in 1979, 1982, and those submitted as mitigation for the construction of the Central Artery project in the Boston Metropolitan Area. Those TCMs included in the 1979 and 1982 submission for implementation in the Pioneer Valley Region have all been accomplished through construction or through implementation of ongoing programs. These projects have all been included in past Pioneer Valley MPO RTPs and TIPs.

APPENDICES

APPENDIX B: Air Quality Conformity Status

DETERMINATION OF AIR QUALITY CONFORMITY

Pioneer Valley METROPOLITAN PLANNING ORGANIZATION

FY 2007-2011 TRANSPORTATION IMPROVEMENT PROGRAM

Background

The Commonwealth of Massachusetts is classified as nonattainment for ozone, and is divided into two nonattainment areas. The Eastern Massachusetts ozone nonattainment area includes Barnstable, Bristol, Dukes, Essex, Middlesex, Nantucket, Norfolk, Suffolk, and Worcester counties. Berkshire, Franklin, Hampden, and Hampshire counties comprise the Western Massachusetts ozone nonattainment area. With this nonattainment classification, the 1990 Clean Air Act Amendments (CAAA) required the Commonwealth to reduce its emissions of volatile organic compounds (VOCs) and nitrogen oxides (NOx), the two major precursors to ozone formation to achieve attainment of the ozone standard.

The CAAA also required Metropolitan Planning Organizations (MPOs) within nonattainment areas to perform conformity determinations prior to the approval of their Regional Transportation Plans (RTPs) and Transportation Improvement Programs (TIPs). The most recent conformity determination occurred on June 15, 2005, when the Federal Highway Administration (FHWA) – in consultation with the Environmental Protection Agency (EPA New England) and the Massachusetts Department Of Environmental Protection (DEP) – confirmed that all 13 of the RTPs for the year 2003 in Massachusetts (and their updates in some cases) were in conformity with the Massachusetts State Implementation Plan (SIP). A brief summary of major conformity milestones in recent years is as follows (more details are provided in the 2003 RTP and related documents):

In October 1998, DEP submitted to EPA a technical correction to the Massachusetts SIP for Ozone, which included a 2003 mobile source emission budget for the Western Massachusetts Ozone Nonattainment Area. EPA found this emission budget adequate for conformity purposes under the one-hour standard in February 1999, and this budget has since been used in all subsequent conformity determinations.

In 2003, air quality analyses were conducted on behalf of all the 2003 Regional Transportation Plans (RTPs), the purposes of which were to evaluate the RTPs' air quality impacts on the SIP. Conformity determinations were performed to ensure that all regionally significant projects were included in the RTPs. The Massachusetts Executive Office of Transportation found the emission levels from the 2003 Regional Transportation Plans to be in conformance with the SIP. Each MPO had certified (and continues to certify) that all activities outlined in its Plan and its TIP:

• will not cause or contribute to any new violation of any standard in any area;

- will not increase the frequency or severity of any existing violation of any standard in any area; and,
- will not delay the timely attainment of any standard or any required interim emission reductions or other milestones in any area.

In 2004, two eight-hour ozone non-attainment area designations for Massachusetts – classified as "moderate" – went into effect on June 15th, and were geographically identical to those of the previous one-hour standard: the Boston-Lawrence-Worcester (Eastern Massachusetts) Area, and the Springfield (Western Massachusetts) Area. Concurrent with those designations, EPA announced that the 1-hour ozone standard would be revoked as of June 15, 2005.

In 2005, updated air quality conformity analyses for the eight-hour ozone standard were performed for the 2003 RTPs and 2005-2009 regional TIPs. This was required to avoid a conformity lapse and a resulting potential delay or loss of federal transportation funding. On June 15, 2005, FHWA – in consultation with EPA New England and DEP – made a positive conformity finding for the eight-hour standard. The emission results for the Pioneer Valley Metropolitan Planning Organization (PVMPO) and all other MPO regions in the Western Massachusetts Nonattainment Area remain unchanged from the June 15, 2005 conformity determination. In accordance with Section 122(g) of the Transportation Conformity Rule, the PVMPO is relying on its previous emissions analysis to demonstrate conformity.

Key elements of this 2007 – 2010 TIP related to air quality conformity are as follows:

- This TIP is financially constrained, and all projects in the TIP come from the conforming 2003 Regional Transportation Plan and updates.
- All regionally significant projects included in the TIP have been included in the air quality analysis for the conforming RTP. These projects are of the same design and concept as presented in the RTP, and the TIP does not add, delete, nor reprogram any such projects across analysis years.
- Because projects in the TIP come from the conforming RTP, *and* all regionally significant RTP projects for 2006 through 2010 (both Federal and Non-Federal Aid) are programmed in the TIP, the same air quality analysis used for the RTP can be used for the TIP.
- Therefore, this TIP, in combination with the TIPs from the other MPOs in the nonattainment area, demonstrates air quality conformity.

Timely Implementation of Transportation Control Measures

Transportation Control Measures (TCMs) have been required in the SIP in revisions submitted to EPA in 1979 and 1982. All SIP TCMs have been accomplished through construction or through implementation of ongoing programs.

Air Quality Conformity Analysis

The conformity test is to show consistency with the motor vehicle emissions budgets set forth in the SIP. Specific information regarding the analysis methods, latest planning assumptions, and consultation procedures are all detailed in the 2003 RTP and update. The motor vehicle volatile organic compounds (VOC) and nitrogen oxide (NO_x) estimated emissions for the Western Massachusetts Ozone Nonattainment Area include all the following MPOs:

- Berkshire MPO
- Franklin Regional Council of Governments*
- Pioneer Valley MPO
- * This region is considered to be an MPO for planning purposes.

The Executive Office of Transportation, Office of Transportation Planning estimated the emissions for VOC and NOx for all areas and all MPOs (emissions for the Berkshire Region were also estimated by MPO staff and were included in the final totals). The VOC mobile source emission budget for 2003 for the Western Massachusetts One-Hour Ozone Nonattainment Area has been set at 23.770 tons per summer day and the 2003 mobile source budget for NOx is 49.110 tons per summer day. As shown in Tables 1 and 2, the results of the air quality analysis demonstrate that the VOC and NOx emissions from all Action scenarios are less than the VOC and NOx emissions budgets for the Western Massachusetts Ozone Nonattainment Area:

TABLE 1

VOC Emissions Estimates for the Western Massachusetts Ozone Nonattainment Area

Year	Pioneer Valley MPO Action Emissions	Western MA Action Emissions	Budget	Difference (Action – Budget)
2000	N/A	31.845	n/a	n/a
2007	8.4281	13.636	23.770	- 10.134
2010	6.2988	10.231	23.770	-13.539
2015	4.1715	6.838	23.770	-16.932
2025	3.1633	5.295	23.770	- 18.475

(all emissions in tons per summer day)

TABLE 2

NOx Emissions Estimates for the Western Massachusetts Ozone Nonattainment Area (all emissions in tons per summer day)

Year	Pioneer Valley MPO Action Emissions	Western MA Action Emissions	Budget	Difference (Action – Budget)
2000	N/A	59.139	n/a	n/a
2007	23.0208	37.661	49.110	- 11.449
2010	16.0451	26.417	49.110	- 22.693
2015	7.6234	12.689	49.110	- 36.421
2025	3.2763	5.590	49.110	- 43.520

In summary, this TIP is derived from a conforming regional transportation plan, and the conformity determination has been prepared in accordance with EPA's final conformity regulations. The PVMPO has found the emission levels from this FY 2007-2011 TIP – in combination with the emission levels from the other MPOs in its nonattainment area – demonstrate conformity with the SIP. Therefore, the implementation of the FY 2007-2011 TIP is consistent with the air quality goals in the Massachusetts SIP.

Contributions to Reductions in CO Non-attainment Areas

As of April 22, 2002, the city of Springfield was re-designated as being in attainment for carbon monoxide (CO) with an EPA-approved limited maintenance plan. In areas with approved limited maintenance plans, federal actions requiring conformity determinations under the transportation conformity rule are considered to satisfy the "budget test" (as budgets are treated as not constraining in these areas for the length of the initial maintenance period). Any future required "project level" conformity determinations for projects located within this community will continue to use a "hot-spot" analysis to assure that any new transportation projects in this CO attainment area do not cause or contribute to carbon monoxide non-attainment.

APPENDIX D: Statewide Road and Bridge Policy

Statewide Road and Bridge Policy

In January, 2003 Massachusetts Governor Mitt Romney developed the Statewide Road and Bridge Policy. It states that it shall be the policy of the Commonwealth of Massachusetts, in all programs involving work on streets, roads and bridges, to:

(i) Fix It First. To give priority to the repair of existing streets, roads and bridges; and

(ii) Use **Communities First Initiative**: Wherever a street, road or bridge needs to be redesigned and reconstructed, to plan and undertake, in collaboration with the affected community, a "context-sensitive" project -- one that fully protects and enhances the surrounding community and landscape while addressing mobility for all transportation modes.

The purposes of this policy are to

- Prevent sprawl;
- Recognize all the Commonwealth's citizens and communities as its transportation agencies' customers;
- Avoid the costs associated with unnecessary road widening and the conflicts they entail, and thereby use available funding to complete more projects in more communities and to produce more construction jobs; and
- Provide enhanced mobility for sustainable transportation modes (walking, bicycling, and public transportation).

It will be the responsibility of the Chief of Commonwealth Development and Secretary of Transportation to take the following actions to implement this policy.

(i) The Highway Design Manual and any other relevant standards, guidelines and policies of MassHighway shall be reviewed and revised to incorporate the principles of context-sensitive design, traffic calming, and multi-modal accommodation. An advisory committee consisting of representatives of municipalities, regional planning councils, and other affected interests shall be formed to help guide this process, and ample opportunity for input from the general public shall be provided. The process of revising the manual and any other standards, guidelines and policies shall be completed by October 1, 2003.

(ii) Projects with community-friendly design that can be undertaken immediately using existing funds shall be identified by MassHighway as quickly as possible, and no later thirty days from this date, and implemented immediately thereafter.

(iii) An ombudsman shall be appointed in the Executive Office of Transportation and have responsibility for hearing and facilitating the resolution of citizen and community concerns regarding project design. In addition, a process for expediting project review and requests for waivers from current design standards and guidelines, and requests for exercise of flexibility in applying current design standards and guidelines, shall be established within MassHighway and overseen by the Secretary of Transportation and Construction. All documentation regarding waivers shall be made available for public review. (iv) All actions taken pursuant to this policy shall fully honor the letter and spirit of provisions in the Massachusetts General Laws requiring the accommodation of bicycle and pedestrian traffic, including chapter 90E, section 2A. Where there are differences of opinion concerning the necessity or desirability of widening pavement, eliminating curbside parking, or taking other measures to accommodate bicyclists and/or pedestrians, full use shall be made of creative design expertise and public involvement, facilitation or dispute resolution processes.

(v) A plan for repairing or reconstructing the state's structurally deficient bridges shall be developed and finalized, in consultation with the Commonwealth's municipalities and metropolitan planning organizations, by July 1, 2003. This plan shall address all the state's bridges, including in particular those owned or controlled by the Metropolitan District Commission, Department of Environmental Management, and Massachusetts Bay Transportation Authority as well as other agencies. It shall include a budget and a schedule for completing the bridge repair and reconstruction process.

The statewide bridge plan shall include a maintenance and management program designed to protect our assets, make them function better for motorists and other users, and minimize the need for future reconstruction or expansion projects. This maintenance and management program shall address basic maintenance issues (painting, de-icing practices, and so on). It shall also include (1) an improved pavement management system and (2) strategies for optimizing the operation of the system to avoid more costly capacity expansion projects. Such strategies shall include:

(i) Improving signage so that travelers can more easily tell where they are and where they are going;

(ii) Scheduling of construction to avoid peak travel periods on key roads whenever feasible;

(iii) Improving incident response systems; and

(iv) Using multimodal transportation strategies to the maximum extent feasible both to reduce traffic congestion and to enable more travelers to bypass congestion by using non-highway modes.

Section II - Non Federal Aid Highway Operations - State Operating Budget Funding

Pioneer Valley MPO Operations and Maintenance Summary Table For the Pioneer Valley Transit Authority State Fiscal Year 2006

The numbers below represent actual numbers for the previous year, the current year budget/forecast approved by the RTA Advisory Board, and Projections for the out-years as used in the Program Preview meetings with the State. These numbers indicate that there are sufficient revenues projected to meet the operating needs of the area transit authority.
