Presentation: 6:30 – 8:30 PM

Attend one or both events

**Pizza and snacks will be
provided at both sessions**

Families are welcome!

What's Happening?

Two in-person events to review the design and environmental components of the Main Street Rebuild Project:

- Afternoon open house with informal discussion
- Evening presentation + question and answer session

How Will this Affect You?

This project proposes to rebuild Main Street to promote a safer, more accessible downtown for all. This means safer crosswalks, wider sidewalks, separated bike lanes, and more seating and green space. Trees will be removed and many more will be replanted.

The City welcomes your comments.
