

**Streamline Your Solar Review and Inspection Process**

**Quickly Identify Common Solar Design and Installation Errors**

# SOLAR PERMITTING AND INSPECTION TRAINING

**09.05.18**

**Register Now! CEUs Available!**

\$35 fee includes continental breakfast and lunch

\*a small number of needs-based fee waivers are available. Visit Registration Page for application.

<https://pvcoursespringfieldma.eventbrite.com>

After attending, participants will be able to:

- Identify the most common solar installation errors & safety concerns
- Evaluate a permit application for compliance with applicable building, fire, and electrical codes
- Verify that an installation matches the approved plan

During the course, you will review a set of plans to gain experience with a practical review process and learn how to efficiently perform a PV system inspection.

60 Congress Street - Floor 1  
Springfield, MA 01104-3419

## INSTRUCTORS

### Jim Rogers

Jim is the Inspector of wires for the Town of Oak Bluffs, MA and owner of Bay State Inspectional Agency. He is a national expert in solar plan review and inspection, and has taught solar permitting courses across the US for the Department of Energy and other organizations.

### Rudy Saporite

Rudy is the Operations Manager for Energy, Sustainability and Resilience for Institute of Building and Technology Safety (IBTS), a national nonprofit providing services to local, state and federal government. In this role, Rudy has conducted and overseen thousands of solar inspections, including in the Commonwealth of MA.

## WHO SHOULD ATTEND?

### Best suited for:

**Plan Reviewers**

**Building, Electrical and Combination inspectors**

### Also invited:

Electricians, PV System Designers and Installers
